CONSTANTINOPLE, July 4.

THE Plague has lately made its appearance in this capital, particularly in the ſuburb of Pera.

We hear from Salonica, that the Baſhaw of Yaſſina paſſed by that city, at the Head of 13,000 men, on his march to Varna, where he was to embark for Georgia. He has been followed by ſeveral Albanian detachments, who have orders to go to the ſame country.

Civita Vecchia, July 14. The Engliſh conſuls reſiding in foreign countries, have received orders from their court to take away the Engliſh paſſports, which the Genoeſe ſhips had obtained at Port Mahon and Gibraltar; and that the governors of thoſe places are forbid to furniſh any for the future to neutral powers.

Algiers, July 6. An ambaſſador is arrived in this city from the King of Morocco, charged, it was thought, not only to compliment the new Dey, but alſo to hire a veſſel for himſelf to go to Conſtantinople: But an expreſs being juſt arrived to recall him, a report is circulated, that the King of Morocco, having entruſted the government of his dominions to his ſon, is on his march at the head of a hundred thouſand men. It is publickly ſaid, that the ambaſſador had in reality no orders to go to the Ottoman Porte, but was ſent hither to prevail on the Dey to agree to a peace with Spain, but nothing of the negotiation tranſpires.

Ferrara, Auguſt 23. Coffee is become ſo ſcarce in Arabia, that the Grand Signior has prohibited the exportation of it throughout all his dominions; it is alſo ſaid that he has laid an embargo on all tranſport veſſels in his dominions, to reduce the Egyptians. An earthquake, which happened in the iſland of Cephalania, has done great damage there.

Copenhagen, Sept. 2. On Saturday the 30th of Auguſt, the marriage of his Serene Highneſs Prince Charles of Heſſe-Caſſel, Vice-Roy of Norway, and Grand Maſter of the Ordonnance, &c. with her Royal Highneſs the Princeſs Louiſa of Denmark, was celebrated with great magnificence.

LONDON, September 11.

YESTERDAY Count Marſhall, and Count Roſumouſky, generals in the Ruſſian ſervice, lately arrived in England, were introduced by the Ruſſian Ambaſſador to his Majeſty, and graciouſly received.

Yeſterday the Lord Chancellor arrived in Town, and afterwards attended the Council at St. James's; at which alſo the Earl of Northington aſſiſted, and in the afternoon the latter ſet out for the Grange.

Yeſterday Sir George Yonge, Bart. kiſſed his Majeſty's hand, on being appointed one of the Lords of the Admiralty.

As did Iſaac Barré, Eſq; Member for Wycomb, in Bucks, on being appointed one of the Vice-Treaſurers in Ireland, in the room of Lord George Sackville.

Extract of a Letter from an Officer of the 62d Regiment, dated Dominica, July 29, 1766.

"I am juſt returned from Guadaloupe, where I have been a few days on an embaſſy, to demand of the General and Governor a veſſel belonging to that iſland, taken out of one of our bays, by a guarda coſta of that government, having contraband goods on board, though under our protection, as ſhe had come to anchor there after a chace of ſome hours, and thrown herſelf under our protection. I had the happineſs to ſucceed; and although both veſſel and cargo had been condemned and publickly ſold, I had the ſatisfaction of receiving the value of the cargo, and of obliging the Governor to deliver me the veſſel; and by his own people, to ſend her with me to this government. So much for the honour of the Britiſh nation, and to prevent inſults to our infant colonies."

We hear that yeſterday the following promotions took place in the General Poſt-Office, on account of the diſmiſſion of a late clerk, viz. Mr. Baker appointed clerk of the North road; Mr. Silveſter clerk of the bye-nights, in the room of Mr. Baker; and Mr. Jacob Jackſon, aſſiſtant clerk, ſucceeds Mr. Silveſter as clerk of the bye-nights. There are ſeveral other promotions among the junior clerks.

Lately was married in the Eaſt-Indies, Brigadier General Carnac, to Miſs Woolaſton.

Sept. 12. Tueſday an expreſs was diſpatched to Sir Andrew Mitchell, our Ambaſſador at the court of Berlin, ſaid to be charged with a commiſſion of great importance.

On Wedneſday Lord Chief Juſtice Wilmot, Sir Charles Saunders, and Col. Barré, were ſworn of his Majeſty's moſt honourable Privy Council.

The Admiralty Board was ſettled on Wedneſday as follows: Sir Charles Saunders, firſt Lord; Sir William Meredith, Bart. Sir George Younge, Bart. Lord Palmerſton, and Admiral Keppell.

The Parliament, which ſtood prorogued to the 16th inſt. is, by proclamation, further prorogued to the 11th of November next, then to ſit for the diſpatch of divers weighty and important affairs.

Laſt week the Right Hon. the Lords Commiſſioners for Trade and Plantations adjourned for a month, being the uſual receſs at this time of the year.

Laſt week the Prince of Anhalt Deſſau landed at Hull, and from thence went to Scarborough, where he is now with the Marquis of Granby.

The Right Hon. the Earl of Hillſborough will this day ſet out for Ireland, to his ſeat in that kingdom.

Yeſterday arrived in Suffolk-ſtreet, from Italy, the Prince of Lardaria, and Count St. Antonio.

It is ſaid, that the neceſſity of having triennial parliaments will be ſtrongly enforced in the Houſe of Commons next meeting.

Letters from Paris observe, that the new British Ministry seem no way to concern themselves about the fate of Mr. Wilkes, who continues to reside in this city, and enjoys very good health.

By the last letters from Senegal, the French appear to have dropt all their late schemes of encroachment on the African coast, now carrying on trade very peaceably, and confining themselves to their own settlements.

Letters from Stockholm, dated August 21, say, that the principal charge contained in the nine articles which have occasioned the dismission of all the Deputies of the Bank, is, "That they have disposed of large sums, conferred considerable employments, and regulated important affairs, without giving any information thereof to the Commissaries of the said Bank, and that in spite of the ordinance of the Secret Committee of 1764, they have advanced upwards of fourteen tons of gold to the Crown, on the false principle that the interest of the Crown and that of the Bank were the same."

Letters from Stockholm advise, that an examination was ordered to be immediately made into the conduct of the Secretary of State R——, the President H——, and two Counsellors of the Chancery.

Some letters from Leghorn say, that the Senate of Genoa seemed inclinable to acknowledge Paschal de Paoli, in the character of Viceroy of Corsica, provided the malcontents would submit to the terms proposed by France for an accommodation with the republic.

Capt. Harrison, of the Royal Charlotte, made his voyage from London to Dominica, and back again to London, in three months and eleven days; the quickest voyage ever known to be made.

We hear that Commodore Harrison is appointed to the command of a guardship at Plymouth.

It is said a plan is forming, and will be laid before parliament next sessions, for erecting magazines for the reception of corn in two or three principal towns of each county in England, to be purchased when grain is cheap, and delivered out to the poor in times of scarcity, at a moderate price.

LONDON, September 15.

On Saturday the Hon. Hans Stanley, Esq; set out on his embassy to the Court of Russia.

Letters from Stockholm, dated August 22, inform, that the States of that Kingdom, have under their consideration the suppression of the ordinance concerning rank and pre-eminence, which has been the occasion of many disputes among families.

Sept. 17. An Ambassador Extraordinary from the King of Poland is expected here in a few days.

Monday Baron de Nokelin, the Swedish Envoy, received some dispatches, said to be of importance, from the Court of Stockholm.

The Right Hon. the Earl of Rochfort will set out in a few days on his Embassy to the Court of France.

We are credibly informed that the Right Hon. the Earl of Chatham has formed a scheme to be presented to Parliament, for the improvement of waste and Crown lands, for the purpose of keeping up a plentiful breed of cattle in the kingdom.

It is reported that a reduction will shortly be made of several of the inferior officers in some great departments under the government, and that the perquisites which have been long exacted by many of them will be enquired into and regulated.

The last Utrecht Gazette says, that four Printers, or Editors, of periodical papers, have, it is said, been cited before the Ministry, in order to declare to them the author of the several satirical pieces against the Earl of Chatham, who after having been long the Idol of the People, seems now borne down in the most unjust manner, as he has neither changed his sentiments nor conduct towards the nation." These foreign Writers are certainly either set on to instigate the great personage to do an act unworthy of himself, or, bred up in the notions of arbitrary power, they take it for granted, that the noble Earl will do here what would be done in their own despotick governments abroad.

It is reported that a British squadron will soon make its appearance before Corsica, to give the greater weight to the terms proposed by England for accommodating matters between those Islanders and the Genoese.

They write from Leghorn that the King of Sardinia interests himself greatly in the affairs of the Corsicans.

They write from Naples, that the Turkish governor of Morea was marched at the head of sixty thousand troops, to check the progress of the rebels in Georgia.

We hear that the making the island of Bermuda a free port, is under consideration; which place having little or no staple of its own, the inhabitants will be greatly benefited thereby; its midway situation between the Northern Colonies and West India Islands, rendering it extremely commodious.

The Gallardo, ——, from Lima, is arrived at Cadiz with 3,150,000 dollars on board.

Sept. 18. *Monday dispatches were received at the Secretary of States Office, from the Hon. Edward Hay, Esq; Envoy Extraordinary at Lisbon.*

By a vessel arrived at Leghorn from the Levant there was advice, that the Georgian army, under Prince Heraclius, had obtained a victory over the Basha of Mingrelia.

They write from Madrid, that the Court had received advice of the late insurrections in Mexico and Peru, having been entirely quelled; and several of the ringleaders were expelled home from La Vera Cruz, in irons.

They write from Paris, that orders had been dispatched to delay the embarkation of French troops at Marseilles and Toulon, which were intended to reinforce General Marbeuf in the island of Corsica.

They write from Hamburgh, that large orders have been received there, to buy up naval stores for the service of France.

They write from Gibraltar, that the late earthquakes at Algiers have occasioned several shoals to be cast up in the sea, near that place, which, it was apprehended, would be very prejudicial to navigation.

By a letter from Tripoly in Barbary, dated the 31st July, we are well informed, that the Bashaw having received certain advice the Venetians were sending a squadron of ships to bombard that city, gave orders immediately that a number of soldiers might be in readiness, he being resolved to make a vigorous defence, should they offer to attack that place. All the castles and fortifications have been repaired, and a number of brass cannon from 24 to 40 pounders placed thereon, particularly at the Marine. Forty thousand horsemen are incamped on the sea shore, east and west of the city, to prevent any descent they may attempt to make. Orders have likewise been issued, that all the women and children retire to the country, and that no person remain in the city but those who are able to bear arms.

Sept. 20. *By the last Earthquake which happened on the 5th of August, at Constantinople, 30 persons were killed, and upwards of a 100 wounded or maimed.*

From Rome there is an account of the death of Cardinal Rezzonico, which vacates a fifteenth hat in the sacred college.

Letters from Leghorn say, that two Commissaries, one English, the other French, are arrived in Corsica, where, in the names of the Kings, their masters, they have undertaken the office of mediators, between the Genoese and the Paolists; and accordingly, to all appearance, will soon reconcile the two parties, and put the last hand to a treaty of accommodation between them.

Extract of a Letter from Naples, August 29, 1766.

"*A small Tuscan vessel sailed from Leghorn about two years ago, with a very rich cargo, and having never since been heard of, it was supposed she had perished; but a person is just taken up here, who was formerly master of a Neapolitan felucca, and who is said to have pillaged and sunk the above vessel, after killing all the crew. Preparations are making for his trial, and the proofs that already appear against him leave no room to doubt of his meeting the punishment due to his crime.*"

Lord Bristol is to hist hands for the Lieutenancy of Ireland on the 29th of this month, and is immediately to go and reside in Dublin.

Lord Northumberland is to be Master of the Horse, and it is thought will hist hands some day next week.

We are informed that Sir George Pococke resigned solely on account of bis ill state of health; but it is whispered that Sir Edward Hawke is on the point of throwing up his employments from another motive.

In the space of the last six years there have been three Grooms of the Stole, five first Lords of the Treasury, eleven Secretaries of State, five first Lords of the Admiralty, five of Trade, and above ninety other changes at the other principal boards; so fluctuating have been the councils of this nation.

Lord Bute hath never appeared at Court nor St. James's since the late change in the ministry; but his Lordship's visits have been frequent at the Queen's palace, where, it is said, he has all along concerted with the Ministry the measures of administration, in the absence (through indisposition) of the Earl of Chatham, and with whom, and there, he also several times consulted, before his (the latter noble Lord's) confinement at North-End.

It is reported, and from some late circumstances, with a probability of truth, that a reconciliation between the Earl of Chatham, and Earl Temple, will soon take place; the mediation of which is to be attributed to a noble Duke, whose principal share in the negotiation of the late peace, caused the greatest political animosity between his Grace and the now Earl of Chatham.——Besides this renewal of friendship between the two noble Brothers, the subsiding of the differences of our patriot and this powerful nobleman, now mediator, cannot fail of giving the greatest stability to his administration, which his Grace, it is said, will preside in the highest department.

It is rumoured that the Chancellor of the Exchequer hath strongly disapproved of some of the Earl of Chatham's plans, relative to raising the funds for the service of the next year.

We are told, that the proposal (said to be the late great Commoner's) to dissolve the present parliament at the end of the next sessions, has already caused great heat, animosity and opposition amongst some of the noble and Right Hon. Personages at the helm.

Some people are very uneasy for the honour of the nation, on account of some late proceedings of a foreign Prince, who has lent us many millions to prevent him sinking.—Where is the dignity of England, if she is to be bullied on every occasion by an inland Prince on the Continent! (Prussia)

Mr. Beardmore has presented Mr. Serjeant Glynn with a handsome piece of plate, whereon his arms are curiously engraved, and, underneath, the following inscription:

To John Glynn, Esq; Serjeant at Law,
This Waiter
Is presented by Arthur Beardmore,
As a small token of gratitude,
For pleading his cause, and that of his clerk David Meredith,
